Chief, Geographic Research

Items for ORR Activities Report for August 1955

Geographic Research

- a. Top priority requirements of the DCI and OCI expended seventy-five percent of the Photo Intelligence Division's project time. The relatively quiescent Formosa-China situation has permitted a realignment of division capabilities to meet OSI and ORR requirements to a greater degree.
- b. The second of the current series of classes in Basic Industrial Photo Interpretation was begun 16 August for 21 analysts from ORR, OCR, and OBI.
- c. The Geography Division issued 19 reports and intelligence contributions during the month. In addition, significant progress was made on several evasion geographies, regional analyses
[REDACTED]
- d. Ninety maps and charts were completed by the Cartography Division.
- e. A summary and appraisal of the implications of Soviet participation in the Antarctic studies of the IGY was prepared for the DD/I, who had requested comments on the Progress Report of the Working Group on the Antarctic, OCB.
